# RURAL COOPERATIVE FOOD AND ENERGY HAS A BIG LEGACY IN JEFFERSON COUNTY

The Lawrence-based and Jefferson/Leavenworth electrical cooperatives dating back to the 1930s merged in 2017 to form Free State Electrical. Providing optional solar and wind generation for property owners. Westar dominates the lines, and 3 of the 5 villages. Municipal-approved bonds could break the hold allowing cooperative shareholders to lower costs.

A network of sustainable farms exist in the county . A farmer market and charity based food network has formed in 2017 to create the first Food Council .

A conversation starter this banner touched on deep memories of older residents of Jefferson County.

A Grange Hall proudly stands in the county and the local newspapers still print press releases of scholarships awarded to students.

A copy proudly hangs hostage till I pay my mechanics bill for the campaign truck.

# COOPERATIVE COMMONWEALTH

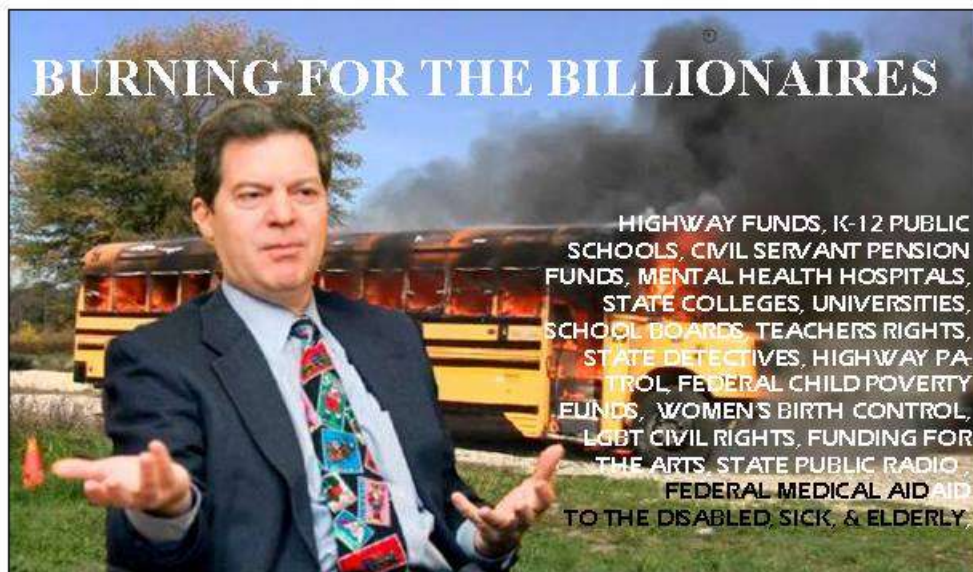

## National Grange of the Orders of Patrons of Husbandry

A fraternal organization in the United States that encourages families to band together to promote the economic and political well-being of the community and agriculture. Founded after the Civil War in 1867, it is the oldest American agricultural group with a national scope. The passage of the "Granger Laws" enabling regulation of railroad and grain elevator monopolies led to national legislation. Rural free mail delivery remains one of its greatest accomplishments. Kansas and Nebraska once boasted the most members in the country. Headquartered in Washington DC, it still exists in 36 states.

## BORDER-LINE CRIME SCENE REPORT

March 28, 2016

Walter Cronkite: "Whatever the cost of our libraries, the price is cheap compared to that of an ignorant nation."

### Kansas House Bill 2719

Libraries are the final safety net for people who desire to educate themselves. Who would attack them? Kansas billionaires and millionaires who take tax deductions funding a "non-profit" front group called Americans for Prosperity, the supporter of House Bill 2719 and our Kansas Republican law-makers. The bill was amended to exclude our public libraries; but emergency services, water districts, construction projects and many other public services will be subject to costly local elections. The bill awaits the governor's signature.

If elected to the 47th District seat, I promise to investigate and inform the constituents of the tax dodgers among the state's wealthiest citizens.

retention. **Pro-lifers cannot support him.**

### UNQUALIFIED FOR PUBLIC OFFICE

Michael Caddell's political views are further to the left than those of Bernie Sanders and in fact balks at having to don the Democrat label because he thinks it's too conservative! Caddell had been licensed to **carry a gun through 2005 and "provided security" outside various abortion clinics**—mainly where his wife worked.

Caddell failed repeatedly to indoctrinate rural Kansas towns with his **radical socialist manifestos**. (see [here](#) and [here](#)) When living in Westmoreland, in the early 1990's, he bought three small news weeklies and in short order the staff quit and the papers folded. Residents there, in the shadow of Ft. Riley, didn't appreciate his anti-war diatribes and style of muckraking. In Nortonville, where he and Neuhaus now live, residents were both insulted and repulsed at his attempts at journalism. As the *Lawrence Journal World* reported:

**"Nortonville's mayor submitted copies of Caddell's "Flying Cock-fighter" flyer to the county attorney, registering a complaint about the obscenity. "He's a screwball...a nut," Mayor Herman Ackmann said of Caddell. "Why he thinks he's a journalist, I'll never know."**

Salina Post, 3-5-91: Mike Caddell, editor of the Frankfort Alternative Index, has come under fire from Frankfort residents for his views

Most certainly, District 47 constituents should **reject Michael Caddell for state**  
**representative** to **leave him out of public office**.

**Blake Carpenter** Dion Lefler you are correct. I would have put my name on it if it was allowed. Since it is late in the session I did not have that option. Hopefully we will be able to change our rules at the beginning of the next biennium to fix that issue.

Like · Reply · 12m

**Mike Caddell** I'm updating a blog posting of my Letter to the Editor as typing this, but this doesn't reveal who in the first body "Committee on Federal and State Affairs" put it on. If it was Rep. Carpenter, then he still has a pretty flimsy excuse for shoving it onto Insurance. Also his party bosses (Sen. Ty Masterson?) have led him over a political cliff. I'm not giving him a parachute, nor should the voters.

Like · Reply · 8m

**Mike Caddell** Thank you Dion Lefler for adding to this sick mystery under the dome. I'm citing passages from your article in this post.

**Dion Lefler** I covered the Legislature a long time and nothing was more annoying than anonymous committee bills (well, actually several things were, but anonymous bills were really annoying). Anyway, as far as I know and unless there's been a change in the rules this year, **Blake Carpenter** is telling the truth that this could only have been introduced as a committee bill. He's taken ownership of it. Process-wise, this bothers me a lot less than watching a committee chairman ask a room full of lobbyists if they have any bills they want to introduce today.

# Free State Fightin' 47th - KANSAS

We need a political revolution in Kansas against the Plutocrats and those determined to destroy our state government.

"I will tell the people what's going on at the statehouse. I'm going to treat the capitol as a borderline crime scene. ... If businesses don't have to pay taxes, the burden should not be on those trying to feed themselves." - The Valley Falls Vindicator & Oskaloosa Independent, March 3, 2016.

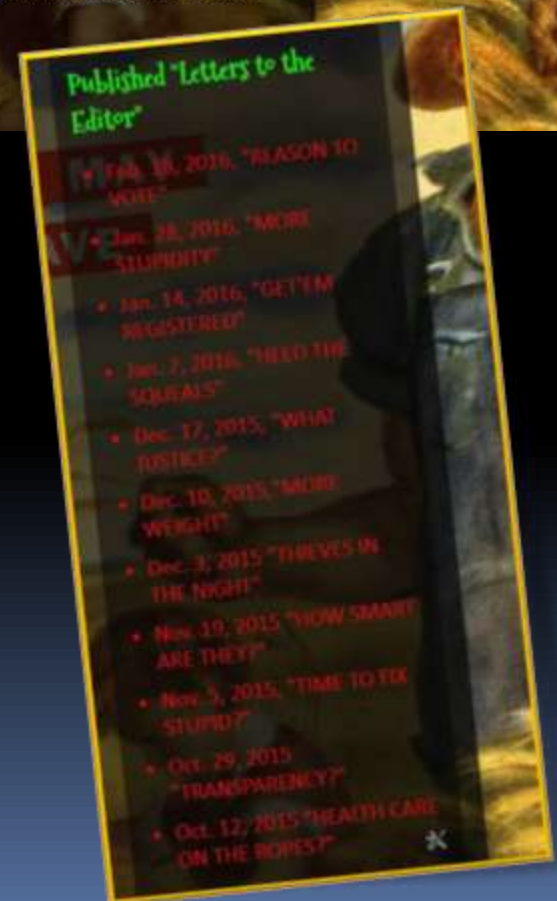

Across Kansas the top 1% are looting and on-the-loose, pitting us against each other. Communities in Jefferson County need to democratically prepare themselves for food and energy autonomy.

- MICHAEL CADDELL, Publisher
